HYDROPHOBIA CURE.

Judge R. J. Breckinridge Gives Remedy for Bite of Mad Dog.

Judge Robert J. Breckinridge, of Danville, has furnished the following remedy, which he says is an infallible cure for hydrophobia. It is particularly interesting now, on account of the large number of victims of rabies over the country. The method of treatment is: "The time between the biting of an animal by a mad dog and the showing signs of hydrophobia is not less than nine days, but it may be nine months. After the animal has become rabid, a scratch of a tooth upon a person, or slobber coming in contact with a sore or raw place, will produce hydrophobia just the same as if bitten by a mad dog.

"Hydrophobia can be prevented, and I will give what is well known to be an infallible remedy for man and beast if properly administered. A dose for a horse or cow should be four times as much as for a person. It is not too late to give the medicine any time before the spasms come on. The dose for a person is one and one-half ounces of elecampane root bruised, put in a pint of new milk, reduced to one-half by boiling; take all at once in the morning, fasting until the afternoon, or at least a very small diet until several hours are past.

"The second dose same as first except take two ounces of the root. Third, same as second. Three doses are all that are needed, and there need be no fear, as I know from my own experience, and know of a number of cases where it was entirely successful. This is no guess work. The persons alluded to had been bitten by their own dogs, which were then tied up to see if they were really mad. They proved to be mad, and the remedy was successful.

"A physician told me he had known of the use of the remedy for over thirty years, and never knew it to fail when properly administered. He related a case where a number of cows were bitten and penned half in one pen and half in another, to half, the

remedy was given and they were saved. The other half died from the real hydrophobia."

FRANKLIN COUNTY BOY'S ALASKA TRIP.

By the subjoined letter it will be seen that Mr. Clarence Shaw, son of Mr. Jas. R. Shaw, at Jetts, has made a wonderful trip through Alaska. We give the letter in full:

The Alaska trip was successful. I went to within eighty miles of the Behring Sea. The weather became so soft that I was compelled to turn back, and came out via Valdege. I traveled 1,850 miles with dogs and averaged 15 miles per day. A picture of our team is being sent in this mail.

I got a nun in Dawson to go with me, taking eight dogs. Each of us drove four. We made better average time than anybody that has ever traveled through Alaska. I lost 25 pounds in weight, but feel good. We carried our own provisions, slept under a tree or any place that was handy, and had many funny experiences.

Of all these I hope to write you more fully in a few days. Fairbanks is all excitement, as they expect to wash up \$14,000,000 of gold this coming spring. We have 1,000 tons of groceries to ship there on the steamers leaving the first of June.

I left Fairbanks for home March 21st. The first three days we made 180 miles, having traveled 68 miles on one of those days.

Traveling with dogs you have to walk or run most of the time and can ride but little. We were caught in a snow storm 70 miles from Valdege, and had to camp on a glacier. When we woke up the next morning there was 14 inches of snow over us. The trails were blown flat and entirely obliterated. The road house was some ten miles away.

Snow in the trail was up to our hips. We had to throw away one sled and hitch all the dogs together on the one remaining. Then we took turns going ahead of the dogs to break the trail. It was terrific work, and took the entire day to make the road house (ten miles) and we were about "all in," hot dogs and men.

The next day we rested an six o'clock a. m., March 31st, we started for Valdege. We went over a summit 3,000 feet high, walked every step of the way, in deep snow much of the time, and arrived at Valdege without a stop at 3 a. m., April 31st, having done the 60 miles in 21 hours without rest. We were pretty well done up. I arrived home April 11th.

RELIEF IS POSSIBLE.

It is possible to obtain relief from chronic indigestion and dyspepsia by the use of Kodol for Dyspepsia. Some of the most hopeless cases of long standing have yielded to it. It enables you to digest the food you eat and exercises a corrective influence, building up the efficiency of the digestive organs. The stomach is the boiler where the steam is made that keeps up your vitality, health and strength. Kodol digests what you eat. Makes the stomach sweet—puts the boiler in condition to do the work nature demands of it—gives you relief from digestive disorders and puts you in shape to do your best. Sold by J. W. Gayle.

The pastor and family were agreeably surprised and made happy. Many thanks, and may God bless you all for your kindness in my prayer.

GOOD FOR THE CITY.

The Capital Lumber Company established a saw and planing mill upon the old brick yard on the river front, between Capital Avenue and Logan street, last fall, began business about the first of November and now employ fifty or sixty hands with a weekly payroll of six hundred dollars. Manufacturers are the institutions which build up a city—we want more of them and want them bad.

LARGEST COLLECTION OF REVENUE TAXES EVER MADE AT LOCAL OFFICE.

On Tuesday last Deputy Collector Grant L. Roberts made the largest collection of internal revenue taxes ever made at the local office. The number of barrels upon which the taxes were paid was 670, involving the sum of \$25,908.80 in cash. Mr. Roberts is to be congratulated upon the good showing made.

BADLY HURT.

While driving along Second street, at the corner of Capital Avenue, on Saturday, Walter Updike and Louis Henry were thrown out of a spring wagon in making a short turn. Young Henry escaped injury, but Updike was dragged and kicked by the horse on the chest and elbow, which were considerably bruised and lacerated. Surgical aid was rendered at once, and the lad will soon be all right.

REMARKABLE SWARM OF BEES.

On Thursday afternoon Mr. John Morris and Mr. George Huffman, living on the South Side, discovered an unusually large swarm of bees, who had alighted on a lilac bush in the yard of Mr. Jos. Cox, on Steele street. These gentlemen proceeded to hive the bees and discovered that there were about three times as many bees as usual in the swarm. There was only one queen in the lot. The swarm will be divided into three hives as soon as two other queens can be secured.

DARING BURGLARS.

Three different attempts were made by burglars to enter houses in this city, on Thursday night. In one of them the man succeeded in entering the residence of Dr. U. V. Williams, on Steele street, when he was discovered

and tackled by Mr. Chas. G. Russell, who boards in the house. In the struggle, Mr. Russell had his collar bone broken and was otherwise injured by the scoundrel, who finally succeeded in pulling away from Mr. Russell and escaping, leaving his hit behind.

The second attempt was to enter the residence of Mrs. E. M. Nell, on Third street, but the thief was frightened off.

The third was at the residence of Mr. Nick Smith, on Holmes street, where the man opened the shutters and was attempting to enter the house, when Mr. Smith jumped from his bed and grabbed him. By the assistance of passers-by, the thief was secured and lodged in jail.

The man is a heavy-set, full bearded fellow with the crook written all over him.

The bloodhounds of Capt. Kirby were put on the trail of the man who entered Dr. Williams' house, but, after trailing him to the Louisville pike, beyond the city school, gave up the scent.

EMINENT MAN DIES.

Hon. Carl Schurz, the eminent and able statesman and politician, passed away at his home in New York City, on Monday morning, aged 76 years.

Mr. Schurz was born in Germany and was forced to flee from that country before he was of age on account of having engaged in a movement for the securing of liberty to the German people.

He came to this country and distinguished himself as an editor, soldier, U. S. Senator and Cabinet officer.

He was a great man intellectually, but very impracticable in many of his views.

ATTENTION!

Frankfort, Ky., May 11, 1906.
I have secured 25,000 shares of stock in what I believe to be a strictly first class mining proposition. These shares are to sell at \$2.50 each, par value of \$5.00. This property is in the great copper district in Cochise county, Arizona. There are producing mines on three sides of us, that are shipping ore every day. This is not a prospect, this stock is in a proven mine and one that needs some money for operating purposes. I shall make a trip to these mines the latter part of June and will take some of the best business men in this section with me. I do this simply to prove to you, before you buy a share, that we have producing mines and that with a little money they can be made dividend payers, in from twelve to fifteen months. I shall be pleased to give you any information you may desire.

Very respectfully yours,
RALPH R. WILSON.

Laxative Bromo-Quinine Tablets
the remedy that cures a cold in one day

"DO IT TO-DAY!"

"And to think that ten months ago I looked like this! I owe it to German Syrup."

"The time-worn injunction, 'Never put off 'til to-morrow what you can do to-day,' is now generally printed in this form: 'Do it to-day!' That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists."

GOOD MEETING HELD AT LAWRENCEBURG.

An Interurban Line From This City to the Capital of Anderson Pretty Well Assured.

A committee consisting of about twenty members of the Business Men's Club of this city went to Lawrenceburg, on Tuesday last, and took part in an enthusiastic meeting of the good people of Lawrenceburg and Anderson county to boost the proposed interurban line from this city to the capital of Anderson.

Addresses were delivered by Mr. W. S. Farmer, Col. Geo. B. Harper, Col. C. E. Hoge, Dr. U. V. Williams, and Mayor E. E. Hume, of the committee from this city, setting forth the vast importance of the road to both cities.

Addresses were made upon the part of the Lawrenceburg Business Men's Club by Judge Wm. Dowling, Mr. Geo. G. Speer, Dr. N. V. Kavanaugh, Mr. J. M. Johnson, Mr. Geo. A. Williams, Mr. J. W. Gaines, Capt. T. J. Ballard, Mr. Frank Rippe, and Mr. W. P. Marsh.

At the conclusion of the conference the following committee was appointed to look over the field and to recommend such action as will assure the building of the line: W. C. Woods, T. J. Ballard, J. W. Gaines and G. W. Hutcheson, of Lawrenceburg; G. B. Harper, D. W. Lindsey, C. E. Hoge and S. S. Farmer, of Frankfort.

The meeting was a large and enthusiastic one and high hopes are entertained of the success of the enterprise, which will be a profitable one from the outset.

NOW FOR BUILDING THE VERSAILLES LINE.

The City Council, on Monday night, unanimously passed the ordinance granting the Traction Company the needed franchises for the building of roads from this city to Versailles, Lawrenceburg, Owenton and Shelbyville.

Thus the last obstacle is removed from the way of constructing the roads, first from this city to Versailles.

We are assured by those in a position to know that the work of

Lost Reason After LaGrippe.

Daughter Had Frequent Spasms.

Dr. Miles' Nervine Cured Them Both.

Dr. Miles' Nervine is a specific for nervous disorders. It removes the cause and effects a speedy and permanent cure. "I feel it is my duty to let you know that your medicines have cured my little girl of nine, of spasms. She commenced having them at the age of three. Our family doctor said she would outgrow them but she did not. We took her to another physician who said her trouble was epileptic fits in a mild form. He did her no good either. She was so nervous she could hardly walk. As I had already used Dr. Miles' Nervine and found a good remedy for myself I commenced giving it to my child. I gave her in all ten bottles of the Nervine and one of the Blood Purifier. That was over two years ago and she has not had an attack since we commenced the treatment. She is no longer troubled with nervousness and we consider her permanently cured. I enclose her picture. My mother-in-law lost her reason and was insane for three months from the effects of LaGrippe. Six bottles of Dr. Miles' Nervine cured her. My sister has also taken it for sick headache with good results. We all thank you very much for your good medicines and kind advice. I don't think there is any other medicine half so good. I send my daughter's photograph so that you may see what a sweet little girl lives out in Arkansas."—MRS. HANNAH BARKETT, Springfield, Ark.

construction will be begun as quickly as necessary arrangement as to men, material and machinery can be made, in no event to be over a month.

We rejoice to know that this long hoped and prayed-for improvement is at last to be an accomplished fact.

It means much for the upbuilding of dear old Frankfort's business interests and for the advancement of the interests of the good people who live along the proposed line, in the increased value of their farms and in the facilities of transportation for their families to the schools and social entertainments of the city.

The gentlemanly, intelligent and progressive management of Superintendent J. D. Saltee has been no small factor in enabling the company to accomplish the gaining of the franchises without friction.

JUDGE O'REAR TO HEAD METHODIST COMMISSION.

At the General Conference of the Southern Methodist Church, at Birmingham, Ala., on Saturday, a report was adopted creating a commission to ascertain to what extent the General Conference had control of Vanderbilt University through its Bishops.

The following gentlemen were appointed that commission: Judge E. C. O'Rear, of Frankfort, Ky.; Judge John A. Rich, of Slater, Mo.; Judge E. D. Newman, of Woodstock, Va.; Judge John A. McCullough, of Greenville, S. C.; and Judge C. F. Bates, of Chattanooga, Tenn.

Judge O'Rear's reputation as an able and upright judge has become national.

EX-GOV. ROBT. L. TAYLOR WINS.

In the State Democratic primary for the nomination of a candidate for U. S. Senator from Tennessee, held on Saturday last, Ex-Gov. Robt. L. Taylor was nominated by over 20,000 majority over Senator Edward W. Carmack, the present incumbent.

Gov. Taylor is well known as "fiddling Bob," because of his use of a violin in a campaign between himself and his brother, Hon. Alfred A. Taylor, for the office of Governor. Both were expert violinists and they would, in this unique campaign, travel together, sleep together, play the violin together on the platform and then pitch in to each other politically—one being a Democrat and the other a Republican. Gov. Bob pulled through on a narrow margin, and served two or three terms as Governor. He is an able man, and has a national reputation as a lecturer.

Often times in the sudden illnesses of children if a reliable remedy is available fatal consequences can be avoided. For these emergencies parents are urged to have at hand ready for immediate use Dr. Shoop's Diphtheria Cure, Dr. Shoop's Croup Cure, Dr. Shoop's Worm Cure and Dr. Shoop's Pain Panacea. Children's ailments demand promptness above all else. There is nothing harsh or that can possibly harm in any of these excellent household medicines. Sold by all dealers.

"PLUCKY PILCHER."

Mr. Louis Pilcher, editor of the revived Nicholasville Democrat, had a pretty vigorous article in his last week's paper, in which he used plain terms. City Marshal Jordan Peel took offense at the article and went to the Democrat office and assaulted Pilcher (who is a slight and delicate man), knocking him down before he could reply to a question in a regard to the matter.

Pilcher managed to get to his feet, secured a gun from his desk and fired two shots at Peel, one of them taking effect in his shoulder, inflicting a painful wound.

The Signs of Heart Trouble

You can Surely Secure Heart Health and Strength through Dr. Shoop's Restorative.

Heart weakness which can be dealt with as all is nerve weakness. Just as your hand trembles when its nerves are weak, when your heart nerves are weak your heart flutters and is subject to fainting spells, pain or tenderness about the heart caused by irregular heart action, causing some to say as if the heart was in the throat; uneasy sensation in the chest, showing that the heart is not working right; the pulse when you lie on one side, but free and easy when you lie on the other; the heart is usually the left side, but free and easy when you lie on the right, painful breathing, and a difficult feeling. There is absolutely no cure by one way or another to treat a weak heart. This is to be treated by a permanent strength to the heart nerves. Can you imagine how any thing else can be done? Dr. Shoop's Restorative will bring back the heart nerves to the heart nerves always. There is nothing in this remedy to stop the heart. It is just the same strength as Nature gives to those who are well. Dr. Shoop's Restorative (Tablets or Liquid) creates strength which extends over the whole inside nerve system—it overcomes the cause of the trouble as well as the result. Sold by

CURE YOUR KIDNEYS.

Do Not Endanger Life When a Frankfort Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Frankfort testimony:

J. P. Taylor, of 804 Madison street, carpenter by trade, now retired, says: "For nigh on to thirty-five years I was subject to pain and weakness in my back. The trouble I know came from the kidneys, especially from the left one, this being the most affected. Sometimes I could scarcely rise after kneeling or stooping, and often when walking sharp pains would take me in my left side so as to nearly cause me to fall. A weakness of the kidney secretions was very annoying, especially at night, and it disturbed my rest. For years, at off-recurring intervals, I took various medicines which all practically failed to give the promised and expected benefit. It is the recollection of these very facts which makes me so appreciate the remedy which also afforded me a genuine and lasting benefit. I refer to Doan's Kidney Pills which were procured by me at J. W. Gayle's drug store. They went right to the cause of the trouble and removed it. I will always recommend Doan's Kidney Pills to my friends as a remedy that can be depended upon."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

BIG EXCURSION.

There was a big crowd on the excursion to Cincinnati, on Sunday last, over the F. & C. and Q. & C. Railways. The delightful day called out a larger crowd than usual. On the return trip the train reached this city at twenty minutes to 1 o'clock Monday morning.

CLIMATIC CURES.

The influence of climatic conditions in the cure of consumption is very much overrated. The poor patient, and the rich patient too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer clime, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those that use German Syrup. Trial bottles 25c; regular size, 75c. At all druggists.

BURK—At Chouteauville, on Tuesday night, Miss Maggie Burk, aged 21 years, daughter of Mr. John Burk, of consumption.

JOHNSON—Mary Sharp McEwan was born in Frankfort, Ky., September 5, 1869, and died in this city May 10, 1906, aged thirty-six years, eight months and one day.

She was the youngest child of William and Elizabeth McEwan, who were old residents of this city, where they both died some years ago. She was married to Mr. L. F. Johnson, of this county, November 28, 1892, with whom she lived happily until her death. To them were born five children, two girls and three boys, who are now left to mourn the loss of their best earthly friend.

Mrs. Johnson's health began to fail about six months ago, and all that earthly friends and the best medical skill could do for her relief was of no avail. Death, it is said, loves a shining mark, and this was true in the case of our sister.

Born of religious parents, she was early brought under the influence of religion. She was converted and united with the Methodist Church when she was a small girl, and ever after was a consistent member of that Church. She died, as she lived, in the full tri-

Was president of the Woman's Foreign Missionary Society of the local Church for many years. Truly one of the best of our women is gone. "Her sun went down while it was yet day." But we sorrow not as those who have no hope. God's providences are past finding out, but in that glad afterawhile, some time, we'll understand. Till that day farewell.

She leaves, beside her husband and five children, one brother (Mr. Ben. H. McEwan, of Kansas City, Mo.) and one sister (Mrs. J. Andrew Cain, of Versailles), and a large circle of relatives to mourn her departure.

YOUNG LADY'S NARROW ESCAPE.

On Wednesday morning Miss Lulu McDonald, daughter of Mr. Jim Clay McDonald, was sitting in a buggy, on St. Clair street, when the horse became frightened and Miss McDonald touched him with the whip, when the animal made a dash down the street toward Broadway. Just then a hind wheel of the buggy came off.

Miss McDonald became frightened and when in front of the store of Messrs. F. & J. Heeney, jumped from the vehicle, alighting on her hands and knees, her right knee, hand and arm were considerably bruised and strained.

When seen by our reporter, just after the accident, she seemed to be suffering a good deal from the bruises and the nervous shock. She was, however, able to return home shortly after.

The horse was captured before further injury was inflicted.

Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of medicines of known composition. It is but natural that one should desire to know the ingredients of the medicine that he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. E. V. Pierce, of Buffalo, N. Y., has taken time by the forelock as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery," the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, overworked, broken-down, nervous and invalid women.

This bold and outspoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book, containing the full list of ingredients, will be sent to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are, they regulate and invigorate stomach, liver and bowels, and regulate the action of the entire system. One or two each day for a laxative to regulate the bowels, and for an active cathartic, once tried always in favor.

\$50,000 GIVEN AWAY, in copies of the "Dr. Pierce's Common Sense Medical Adviser," a book that sold to the extent of 500,000 copies a few years ago, at \$1.50 per copy.

Last year we gave away 500,000 copies of these valuable books. This year we shall give away 500,000 more of them. With 500,000 in this benefit list, and only one-cent stamps to cover cost of mailing out for book and five paper covers, 500 stamps for each bound. Address Dr. E. V. Pierce, Buffalo, N. Y.

[For the Roundabout.] A FARMDALE EPISODE.

Guess you all know Uncle Martin. O' the Farmdale neighborhood—Got one eye that's a kind o' flickered, An' his hearin' s'nt much good. An' you know'd 'till Little Benson, What they hold their meetin' s'ndown. An' the deacon, Uncle Peter, An' the Rev. Robert Brown. Well, it was the big June meetin', An' the darkies near an' far Had turned out to git religion—They had come from everywhar. Every one had brung a basket, Jist accordin' to his means. Anywhars from cake an' chicken Ter hog jowl an' turnip greens. They had most o' 'em come early, An' expected to stay late, An' the eatin' an' the drinkin', An' the talkin', it was great. Both Jack Vinegar an' Jordan Had driv out from Frankfort town—One to exercise his filly—One to help the Rev. Brown. They had had eleven sermons, An' some eighteen prayers or more, An' the rooster's midnight crowin' Mingled with the preacher's roar. They had warmed up pretty smartly With the preachin' an' the gin: Sister Wright had got ter shoutin', Uncle Peter chippin' in. Uncle Martin was a dozin', Way up on an amen seat, Mid a hum o' jubilation, An' the pat o' hands an' feet. Everything was movin' lovely. An' had caught the swing an' sway, An' the preacher was a spittin' Every word that come his way. But jist then there was a racket. On the outside by the door, An' a pistol shot, an' cousin', An' a rock bounced on the floor; It had shattered through the window, Plunged on Martin's shoulers, An' the howl he set up allend—All the racket, there an' then. An' they all come crowdin' round him, As he groaned an' kicked his feet, An' they drag him from the floor, But he'd fall back an' repeat: "Oh, my Lord! you've killed old Martin, Now I guess you've settled! Guess you'll stop this here cavortin'—Burry me by Mully's side!" —H. H. F.

TRACTION MAGNATES HERE.

A party of eighteen capitalists, interested in the Traction Companies in Central Kentucky, came to this city, on Wednesday afternoon, on special cars attached to the 4:20 L. & N. train.

They were met at the depot by a delegation of the Business Men's Club, seated in carriages and taken to the various points of interest about the city.

Upon their return from an inspection of the property of the company here, they were taken to the Capital Hotel, where a delightful supper was served by the management of the hotel.

A number of speeches were made, looking to the furtherance of the work in hand and in extending the "glad hand" to the visitors. The visitors seemed pleased with the condition of affairs and delighted with the hospitality shown them by the Business Men's Club. They left, later in the night, to inspect their properties in and around Lexington.

The building of the traction line leading from this city is now an assured fact, that Versailles being the first to be undertaken.

OPENING OF GLENWOOD PARK.

Glenwood Park (the new name for the Cove Spring Park), was formally opened on Monday night last by the Elite Stock Co., under the management of Mr. D. J. McNamara.

Owing to the improved service rendered by the new owners of the Traction Line, a large crowd were enabled to attend the performance and without any uneasiness as to transportation back to the city at the close of the entertainment.

Early in the evening the Second Regiment Band were placed upon one of the new open cars and proceeded around the loop on the South Side and covering the line in the city, discoursing lively and attractive music, inaugurating the opening of the Park. The orchestra furnished the music at the auditorium during the performance.

The extravaganza "The Senator from Kentucky," was rendered very acceptably by the company in charge.

There was a good crowd out to the initial performance and the outlook is favorable for this popular resort to become more and more popular as the hot weather opens up.

ADJUDGED OF UNSOUND MIND.

Mr. John L. Scott was adjudged of unsound mind, in Judge Polgrove's court, on Saturday, and ordered sent to the Eastern Kentucky Lunatic Asylum.

NARROW ESCAPE FROM DROWNING—BRAVERY OF LITTLE LAD.

On Thursday afternoon three little lads of some nine or ten years of age, living in Bellepoint, went to a raft of logs near by and, as usual with boys, were having a good time when one of them, Herman Allen, slipped into the water, and, but for the bravery of one of his companions, Wilson Long, would have drowned. He went down twice, and was sinking the third time when young Long succeeded, after two or three trials, in catching hold of him and pulling the unconscious lad on the raft and from hence to the shore, where he proceeded to roll and punch Allen, like a veteran, until he restored consciousness, when the lad was taken to his home and put to bed.

But for the bravery and determination of young Long the Allen lad would have surely drowned.

SOLELY THROUGH ROGERS.

THE J. E. M. MILLING Co.,

Frankfort, Ky.

It has seemed to me (always) an unfortunate thing that our great ancestor, the first man, Adam, had no boyhood. I recall, often, the story of his remarkable birth, and even in my childhood was so irreverent as to question, "why?" Perhaps he would have grown up to become an obedient, God-serving man, instead of a disobedient one, had he known the joys of childhood, the pleasures of boyhood; but the fact of missing that one event speaks of the wisdom of a just cause, and the subsequent divergence of the small boys' proclivities.

There are all kinds and classes of boys, good, bad and indifferent, but the majority are the latter. These we find everywhere, and in all conditions. They are made of dirt and stone, and a very few with flesh and blood characteristics. Every one full of energy and go-a-head-it-ive-ness provided the path leads their way, and in the right road of their direction. A few pause and consider, one or two ask for information; the others know it all. Who but a boy knows where the best fishing places are; the blackberries; the watermelon patch; the orchard of green apples; the swimming hole, and in winter where the coasting is finest and the rabbits are ripest.

As a general rule we expect too much of boys, consequently are frequently disappointed when they fail to come up to our standard of excellence. And if they were not so full of muscular energy, so devoid of sensitiveness, we might (by our harsh and hasty criticisms) mar the shaping of spirit, or break the quickening spirit.

My heart goes out to the boys: I love them. For the sake of one little boy who died, and for whom to this day my very soul cries out, I welcome each and every lad who comes my way. The one who went away taught me the language of boyhood's fraternity, there is a sign, grip and pass-word to this chamber of sweetest sympathy, and together we drove and rode, went a-fishing, hunting, played marbles and were "hale fellows well met." He died, and the grave is far off in the land of the "Lone Star," but, to-day, after long years of sorrow and separation, I thank God that He gave me a glimpse into a boy's heart: that He taught me how to become acquainted with boys, also the sweetest privilege of speaking a word in their favor, and advocating their cause in every phase of condition and circumstance.

Happy is the mother who is so blessed as to have had boys in the home. It is a consecration. The silent and quiet boy has artistic tendencies. Perhaps more studious than disposition to work. Do not force such a one to do hard labor, but try by every possible means, methods, and measures, to find out his thoughts, inclinations and desires, and then give him the best possible aid and assistance. The timid, dependent boy requires a different training. He it is who stays closest to mother. He is glad to assist her in little duties about the house, get her shy sweet, caresses when his eye is looking and shuffles awkwardly in hiding when a stranger comes in unexpectedly.

Do not use harsh words or severe punishment to correct these defects. Doubtless he will overcome these characteristics by discipline, himself, for I have often noticed that sudden and immediate danger brings to light, latent, heroic qualities in a boy who was thought to be tied to his mother's apron strings, and wouldn't "have said enough in his own to fight." Nature's like these are as unexpected as cyclones, and when once aroused, are as dangerous. Then smart Alexy boys are precocious as to mental growth. These have had too much license and too little restraint. Allowed to air views and talk back to the detriment of politeness, but after all there is not much harm done and they either become bill posters, dog fanciers, or the loudest spoken leader of some political faction.

Nature abhors a vacuum and there must of necessity be some material to fill up space.

Every day there comes under my observation the study of boys. Those who are truthful by birth

and breeding, and those who prefer equivocation and falsehood to truth and respectability or contrivance.

The truant, the lover of school, the idler who fishes in a small boat away from a crowd, and the boy with a dog who creates excitement by setting his dog on the other boys' dog when he knows that that dog will be the under dog in the fight.

Is a scientific education this study of boys, and the question to be considered is that so many of these tender plants grow with thriftiness into perfected and mature manhood, without any training whatever, into sensible citizens and gentlemen.

Jesus was a boy, gentle and loving in disposition, sweet, amiable and respectful in demeanor. Reverent, obedient, industrious, and a student of nature with divine guidance. His mantle of perfectness must have fallen upon the boys who came after Him, who follow along in his footsteps, weary and heavy laden oftentimes, but positive as to the future; decisive as to the present; resigned in failures of past endeavors.

Give the boys a chance to redeem themselves. Make companions of them, reason with them. All these generous outpourings of pleasant recreation mean much to them. Base ball in particular! Allow the game! Aloof all the low and degrading tendencies connected herewith, and make of it in reality a national game of which women might feel proud. Athletic sports are healthful, but not to doubtful dispositions. All excesses are hurtful, not alone to the physical, but to the intellectual and spiritual. Train the boy to have high ideas and require that he live up to them. Teach them to fear to do wrong. The "ante-bellum gentleman" is fast passing away. The tendency of race progression is fast living, faster eating, rapid locomotion, reckless and unsatisfied living, and in the end spontaneous combustion or an early demise. If it is true that we are shod with the leather of our great ancestors' old shoes, it behooves the parents of the 20th century boys to educate them back to lost and neglected principles of a refined and cultured imagination; feelings of sentiment for motherhood and wifehood, may all these beautiful and ideal concentrations

Thousands of boys all over this country, who never had much money to call their own, are happy now at the merry jingle of cash in their pockets, made by selling

of gentle dignity, worth and loyalty so essential to a simple life. Our boys contain within their own power the province of good government; the making of history. What an army confronts us. What a destiny is before them. Take up their righteous cause and counsel with them in every feature of work and play. Commend their endeavors, patiently overlook each little fault and habit, believing in them, trusting in them and God shall bring down a blessing upon us, and our chief attraction will be "our boys."
